

BEMIDJI, MINN

June 24 marked the close of a gracious five-week Salvation-Healing campaign here at Gospel Tabernacle under the ministry of John and Olive Kellner, evangelists from Geneva, N. Y. The mighty anointing of the Holy Ghost was evident upon the preaching of the Word. A total of 74 persons took their stand for the Lord, 10 received the infilling of the Holy Spirit, a number were refilled, and many were healed in each service.

A remarkable healing was that of a little three-year-old boy who had never walked or talked. He had been taken to clinics and children's hospitals at various times, but nothing could be done for him. The very night he was prayed for he began to walk and has been walking ever since. A woman who had been afflicted for 30 years with a goiter testified to feeling the warm healing power of God in her throat as deliverance came to her. Others were healed of palsy, crooked feet, deafness, and a host of other illnesses as prayer was made in their behalf.

The attendance was good from beginning to end. Seven States and three Canadian provinces were represented in the services, as well as 45 neighboring towns and cities. Truly this has been a great visitation from God.
