

Testimony of Deliverance from Drugs

By Dr. Lilian B. Yeomans

DR. LILLIAN YEOMANS, Winnipeg, Manitoba, said, " 'Ye are my witnesses saith the Lord.' I am always glad to have the privilege of testifying to what Jesus has done for me. I have passed from death unto life. When I came here I was taking from go to too grains of chloral hydrate every 24 hours, which is about twenty times the ordinary dose of chloral hydrate. About a year ago I discontinued by the system of gradual reduction, which is one of the commonest ways of discontinuing. This is considered necessary; because when the heart and lungs are in this condition they die suddenly. I had such insomnia that I could not sleep at all unless I did take large quantities. I became delirious. A number of physicians were attending me. It was given to me hypodermically while in this condition. If I had been conscious I would never have returned to it. When I was restored to consciousness I found myself taking the drug again. I saw Divine Healing plainly in the Bible, but for me to accept it was like trying to walk on air. I prayed and prayed, but it seemed that God would not heal me in that way. He said, I have no healing medicines. I could get no other answer, and I came down three weeks ago. Of course everything was taken away from me at once. I doubt if any competent physician would have dared to take it away from me. I am a physician myself. I am now delivered from these drugs, and from the irresistible appetite."

Miss C. A. YEOMANS, Winnipeg, Manitoba, who had charge of her sister, Dr. Lillian Yeomans, during her stay in Zion Home, and sometime previously said, "I think my sister makes a little too light of the symptoms that occurred after she came to Zion, because they were fearful. She had such diarrhea and spells of vomiting that I thought she was going to die, but now I believe she has been healed by the power of God."
